Summary

UX/UI Designer and Product Designer with end-to-end experience building user-centered digital products through research, data analysis and strong technical understanding. Skilled in designing clear flows, scalable systems and accessible interfaces for web and mobile platforms.

I work closely with cross-functional teams — including Product, Engineering, Growth and Data — to transform complex requirements into intuitive experiences. My work in digital education has impacted thousands of students, improving clarity, engagement and overall usability.

With a background in teaching, I bring strong communication, empathy, leadership and problem-solving abilities. I excel at simplifying complexity, facilitating alignment across teams and making confident, user-informed decisions throughout the product lifecycle.

Skillset

UX Design

User research | Interviews | Qualitative analysis | Synthesis | Usability testing | Journey mapping | User flows

UI Design

Web & mobile interfaces | Visual hierarchy | Accessibility (WCAG) | Component libraries | Design systems | High-fidelity design

Tools & Analytics

Figma (advanced) | FigJam | Google Analytics | Hotjar | Documentation | Handoff to engineering

Technical & Data

Front-end fundamentals | HTML/CSS/JS (concepts) | SQL (basic queries)

Soft Skills

Communication | Empathy | Leadership | Problem-solving | Facilitation | Cross-functional collaboration

Professional Experience

NUBO

UX/UI & Product Designer — Project-based

Remote | Dec 2024 – Present

- Led the end-to-end redesign of the student admission funnel for a digital education product, used by thousands of applicants each year.
- Increased completed applications from **1.4k/year to 3.4k/year** by improving information architecture, clarity and interaction design across the funnel.
- Conducted **6 internal stakeholder interviews** (Education, Growth, Data) to translate business needs into structured UX flows and high-fidelity UI.
- Designed **125+ screens** (mobile & desktop) covering onboarding, classes, navigation and student experience, impacting ~3,200 monthly active students.
- Collaborated with 3 designers, 1 Product Manager, the CTO and Engineering team, ensuring clear handoff, documentation and alignment across teams.

Education

Descomplica — Brazil

Postgraduate Certificate in Fullstack Development

2025 – Present

Tamwood / ILAC — Co-op College

UI/UX Design

Nov 2023 – Nov 2024
